---

The volunteer program of ABC Head Start Society is based on the premise that a successful program includes meaningful community involvement! Throughout the year over 250 volunteers commit their time to ABC Head Start Society, devoting over 8000 hours per year. Staff and Board members of ABC Head Start also contribute countless hours of unrecorded volunteer time.

Volunteers represent various divisions of society, education, age and culture and are motivated to volunteer for various reasons; including a dedication to supporting education, a desire to give back to the community and to fulfill education requirements. Letters of reference are available upon request!

#### **Opportunities for the 2019-2020 school year include:**

- **Classroom participation and supervision**
- **Administrative duties**
- **Supporting events and community engagement fairs and activities**
